They tell of my great discovery that practically all diseases can be permanently cured through the Sympathetic Nerves. Not the nerves we feel with, see with, hear with, but the inside nerves.

It is these that unconsciously operate the vital Organs-the Heart, Liver, Kidneys, Brain, etc. When the inside nerves get run down,

that Organ which is weakest in the body loses its power to act properly. It then throws its work upon the other

These Organs in turn become affected through overwork, and so, scarcely any case is found without complications.

I proved it useless to doctor the individual Organs themselves while the Nervepower to fully operate them was lacking. Sedatives temporarily deadened the pain, but increased the distress afterwards. Tonics revived the drooping powers, only to insure relapse so soon as the stimulus
